

# This Way

ConTeXt magazine #0 MkIV  
Januari 2003

Introduction  
Hans Hagen  
PRAGMA ADE

## Welcome

This is the zero issue of a range of ConTEXt related publications, in most cases short introductions to new functionality. The style may be used by users for providing similar documents, but preferably not for other purposes, since it may confuse readers in their expectations.

We've chosen a layout which is more functional than beautiful. This layout provides several text areas: headers and footers, margins and edges as well as a main text area. The surrounding (gray or color) makes the main page (which is slightly smaller than A4) stand out and is suitable for viewing in spread mode.

The documents produced at Pragma ADE are called **This Way**, user documents gets the title **My Way**. The Pragma ADE issues are numbered. We strongly advise you not to use the `mag-` prefix for your issues, since this may lead to clashes with files distributed by Pragma ADE.

% language=uk

% author      : Hans Hagen
% copyright   : PRAGMA ADE & ConTeXt Development Team
% license     : Creative Commons Attribution ShareAlike 4.0 International
% reference   : pragma-ade.nl | contextgarden.net | texlive (related) distributions
% origin      : the ConTeXt distribution
%
% comment     : Because this manual is distributed with TeX distributions it comes with a rather
%               liberal license. We try to adapt these documents to upgrades in the (sub)systems
%               that they describe. Using parts of the content otherwise can therefore conflict
%               with existing functionality and we cannot be held responsible for that. Many of
%               the manuals contain characteristic graphics and personal notes or examples that
%               make no sense when used out-of-context.

\usemodule[mag-01]

\startbuffer[abstract]
    This is the zero issue of a semi periodical. The associated style can be used
    by \CONTEXT users to typeset and publish their own issues.
